A SESSION WITH ROOM TO CREATE

ONE TO TWO HOURS

I need at least one hour, and I will go up to two hours for the same price, so bigger teams get the time they need. Come ready to do more: more poses, more value for your money.

WHERE WE SHOOT

On the ice if your team can get ice time, or in the changing room. Allow 60 minutes for setup and 30 minutes for teardown: about 2.5 to 3.5 hours of access in total.

PORTRAITS WITH PERSONALITY

We pick 2 or 3 poses together ahead of time, and I send a PDF pose guide to show the kids the night before. Then the players get carte blanche: the cool poses they saw on Instagram and social media. Fog and special effects need suitable space, ventilation and venue approval; we discuss them before booking. Team sessions only.

EASY TO ORGANIZE. TWO WAYS TO PAY.

The manager or coach pays for the whole team at once, or each parent enters their player's details and pays online. Minimum 10 players. Every family being photographed prepays $60 per player at least 7 days before the session, so I know how much time to book. Only prepaid players are photographed, and every player must be there: there is no make-up session.

YOUR GALLERY, YOUR CHOICES

Parents get an email link when the gallery is ready, usually a few days after the session. Choose images for the prepaid package without paying again, upgrade by paying the difference, or order extras. No delivery fee: I drop everything off with the coach or a designated person, who hands it out to the team.
